The reply filed on 10/28/02 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s). In the reply filed 10/28/02, applicant elected Group IV wherein independent claims 12 and 31 recite nucleic acid sequences. However, applicant also elected an *amino acid* sequence, and traversed the sequence election requirement. Applicant's traversal is directed to the requirement for election of a single *protein* sequence, despite the fact that the independent claims elected do not recite an amino acid (protein) sequence. Applicant did not elect a *nucleic acid* sequence from among those recited in the elected, independent claims for examination, therefore the reply is considered nonresponsive. Applicant is hereby required to elect a single nucleic acid sequence from among those recited in elected claims 12 and 31. Applicant's arguments with regard to amino acid sequences are held in abeyance until a fully responsive reply is filed.

It is noted that applicant states on page 12 of the reply filed 10/28/02 that claims 12, 31, and 45-99 are pending. However, as applicant has not cancelled the nonelected claims, claims 1-11, 13-30, and 32-44 are still pending. If applicant wishes nonelected claims to be cancelled, a specific request must be made to cancel those claims.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
